BABIS NIKANDROU

DATA SCIENCE & ANALYTICS ENGINEERING

London, UK | +44 (0) 7856 773535 | nikandroyxa@gmail.com | LinkedIn | GitHub Portfolio

PROFESSIONAL PROFILE

Data science and analytics graduate with an MSc awarded with Distinction and a top-10% class ranking, complemented by an Economics degree and practical analyst experience. Combine Python and SQL with self-initiated projects spanning cloud data pipelines, machine learning and LLM analytics, from API ingestion and data transformation to feature engineering and model evaluation. Draw on business analysis and hospitality management experience to connect technical work with operational needs and commercial outcomes. Currently develop an AI hospitality assistant for live staff training, supported by initial university funding and a first-prize award for the idea and business plan. Target Graduate or Junior Data Scientist and Data Analytics Engineer roles.

CORE COMPETENCIES

- SQL Querying & Optimisation
- ETL & Data Transformation
- Python Programming
- API Integration
- Cloud Data Warehousing
- Feature Engineering
- Machine Learning
- Model Evaluation
- Data Quality & Preprocessing
- Natural Language Processing
- Exploratory Data Analysis
- Git Version Control

TECHNICAL SKILLS

Languages and analysis: Python, SQL, R, pandas, NumPy, Excel
Machine learning: scikit-learn, classification, clustering, DBSCAN, feature selection, cross-validation, hyperparameter tuning
Cloud and development: Google Cloud Platform, Cloud Storage, BigQuery, Azure, Git/GitHub, BeautifulSoup, API integration
NLP and visualisation: LDA, VADER, LLM integration, prompt engineering, matplotlib, seaborn, Tableau

WORK EXPERIENCE

INDEPENDENT DEVELOPMENT | JUNE 2026–PRESENT
AI HOSPITALITY ASSISTANT

- Developed a prototype of an AI-powered POS overlay that delivers real-time staff guidance to staff during live shifts.
- Designing a system that integrates API connections to existing POS systems.

KEY ACHIEVEMENT

- Increase revenue, customer's retention and bridge the communication gap between manager and staff

A&O HOSTELS, LONDON, UK | OCTOBER 2025–PRESENT
BARMAN — PART-TIME

- Provide bar service within the hostel operation alongside ongoing independent software development.

HILTON DOCKLANDS RIVERSIDE, LONDON, UK | JULY 2025–OCTOBER 2025
F&B MANAGER — PART-TIME

- Analysed sales and demand to guide inventory and staff schedules; automated weekly revenue and customer-satisfaction dashboards for operational reviews.

KEY ACHIEVEMENT

- Reduced stock waste by 13% and labour costs by approximately 6%.

RAKUN LTD, LONDON, UK | JANUARY 2025–JUNE 2025
DATA ANALYST INTERN

- Prepared and transformed data with Python and SQL, reducing errors by approximately 10%; supported data warehousing and retrieval.

OPSO LTD, LONDON, UK | JULY 2022–JULY 2023
BAR MANAGER
- Managed staff training, daily team coordination, inventory, replenishment orders and deliveries in a high-volume bar.

LEGO EDUCATION OF GREECE (O3), GREECE | JANUARY 2021–MARCH 2022
BUSINESS OPTIMISATION ANALYST
- Used SQL to analyse demographics and engagement for more than 3,500 participants, informing event design.

KEY ACHIEVEMENT
- Provided insights that helped improve event structure and increase ROI by 12% year over year.

TECHNICAL PROJECT EXPERIENCE

SELF-INITIATED PROJECT | 2025–2026
MOTOGP-RACING FULL STACK CLOUD PIPELINE WITH GCP BIGQUERY ANALYTICS
- Built a BeautifulSoup, GCP Cloud Storage and BigQuery pipeline for 23 races and seven metrics; used SQL and created five matplotlib/seaborn charts.

SELF-INITIATED PROJECT | 2025–2026
X (TWITTER) — GAMING: END-TO-END GENAI & LLM ANALYTICS PIPELINE
- Connected the X API and Claude Sonnet 4.5 to analyse 100 gaming tweets, using automated ETL, prompt design, rate limiting and error handling.

SELF-INITIATED PROJECT | 2025–2026
LOL: END-TO-END API TO ML ANALYTICS PIPELINE
- Engineered 21 features from 460 Riot API matches; evaluated three classification models, recording 94.5% accuracy and 0.986 ROC-AUC through a train-test workflow.

EDUCATION & TRAINING

MSC DATA SCIENCE & ANALYTICS, 2023–2024
University of Westminster, London, UK
Distinction; Top 10% of Class
Dissertation: Compared 15 heart attack prediction models using resampling and calibration for class imbalance.

MASTER'S PROGRAM IN DATA ANALYTICS, 2022–2023
Purdue University by IBM, London, UK

BSC ECONOMICS, 2009–2014
Aristotle University of Thessaloniki, Greece

AWARDS AND HONORS

- Won first prize and funding for the AI Hospitality Assistant idea and business plan at the University of Westminster.

VOLUNTEERISM

- Served as a volunteer referee for a robotics world competition in Greece through LEGO Education of Greece.

ADDITIONAL INFORMATION

Languages: English and Greek (bilingual)

Interests: Football, snowboarding, films and gaming
